RUSSIAN CHEMICAL REVIEWS
Uspekhi Khimii

April 1976

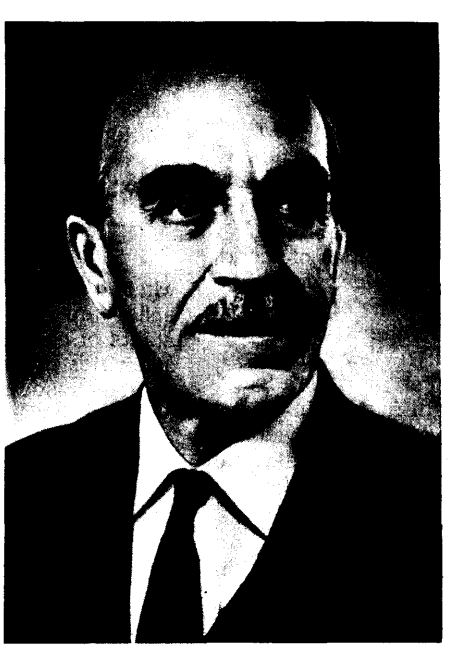

Translated from *Uspekhi Khimii*, **45**, 579 (1976)

Dear Nikolai Nikolaevich,

All Soviet scientists convey to you their warm congratulations and greetings on what is a great day for Yourself and all the scientists in our country.

You are the pride of our Soviet science, the founder of chemical physics — one of the most important fields in modern natural science. Your notable studies on chain theory and the theory of combustion processes and explosions have gained world recognition. Your talent and inexhaustible energy have exerted an enormous influence on the development of various branches of chemical science. Your vigorous scientific-organisational and social and political activities are widely known. You have rendered great service as an active propagandist of science.

The Editorial Board of the Journal "Uspekhi Khimii" wish you, dear Nikolai Nikolaevich, strength, good health, and many years of fruitful creative activity.
